## MESSAGE from the Moderator

*Dear Sisters and Brothers in Christ,*

Very warm greetings and every good wishes to you all. What today I feel is that today we all are feeling some comfortable to work, to worship, to do physical meetings, to move to places even without masks, to do workshops and seminars, and to visit the parishes and dioceses as clergy after being in locked down and starving with the COVID-19 pandemic. At the same time, my heart is also full of sorrow and pain for being lost by our former synod secretary Dr. James Tejosh Das, and many of our Church members this year because of the Delta variant and also other diseases. Anyway, now everything is open in Bangladesh except the colleges and the universities. Thank God that many of us have been vaccinated by the kind favor of the Honourable PM of Bangladesh. We are doing now the worship services, children, youth, women, and all other programs physically and without restrictions but with fully aware of the pandemic that it may come at any time again and following the Government's health restrictions. But what we feel that we have and of course all the world has many things, some have lost their jobs, some of them their near and dear ones and some of us now have been facing the financial crisis to meet up the daily bread, the schools, the hospitals that we have couldn't operate their works, very few students been admitted in the schools and it will be very difficult to meet up the salaries of the teaches of our missionary and private schools.

In midst of this, we have been doing virtual meetings and attending the meetings of our mission partners, and communicating with them. The mission partners have been always taking care

of us and praying for us and still they have been supporting us with their generosity from their end, for which we are so grateful to them. The Synod staff has been working and communicating with the mission partners and friends at home and abroad and we have been submitting and trying our best to report to them with the audited report and the documents. In the meantime we have had our Synod Executive meeting where we have discussed and have taken many

new decisions, especially we have taken decision to go for the Deacon and Deaconess ordination by the 15th of December and we have selected 15 ordinands for the ordination. We have been dreaming practically to be self-reliant the COB by following the Strategies and to use the properties in the best ways which are lying vacant and would be occupied by the land gravers and trying our best to be self-supported the COB from every side aiming at 2021-2030. All the other components of the COB special the Shalom and the CMCY have been functioning effectively in midst of the COVID-19 pandemic and the donor partners are very generous to us and coming forward to assist us with their end but professionally and according to their criteria and organizational standard. May God bless us all. We look forward and we have every trust in God who will not leave us away from "Praise be to the God and Father of our Lord Jesus Christ, the Father of compassion and the God of all comfort, who comforts us in all our troubles so that we can comfort those in any trouble with the comfort we ourselves have received from God" (2 Corinthians 1:3-4).

## Message from Barishal Diocese

Dear All in Christ,

Greetings to you all in the name of Jesus Christ.

We thank God to save all of us from Covid 19. Still people are suffering due to its impact. Though we suffer but God is there to bless and save us.

We are living in a country where multi faith people are living. We realized that we all are one. One mankind, created by God in God's image. Therefore, being the church we served all when people were suffering and are still suffering. We the church proclaimed the love of God to many who were from different faith backgrounds. We the Barishal diocese trying to share the sacrificial love towards all. To share and increase that love we organized local, national and International Interfaith dialogue and initiatives. We extended peace and harmony in our communities and shared the good News with our neighbors. We found it was very much needed as in the middle of October in Bangladesh we were shocked to see some pre-planned incidents, which broke peace and harmony in many places. But our Interfaith initiatives reminded and encouraged many to stand for peace, justice and unity as citizens of Bangladesh and as human beings. The leaders and lay people of other faith appreciated it and expecting to organize more dialogues and activities to strengthen our unity. Hope God will bless us all to be channel of peace. Jesus promised that He has given His peace to us. So, as Christians we must share that peace and justice to all.

We are happy that our youths have taken this peace and harmony not only to human beings but to the whole creation and have raised their voices to save the earth and protect the climate change issue. Yes, God asked us to care the creation and keep peace and harmony with the whole creation. Otherwise we are harming our neighbors- the whole creation and nature. We will be glad if by God's grace we can continue to love and care for the whole creation and human beings.

May God continue His/Her blessings on us all.

With prayer and regards.

**Rt. Rev Shourabh Pholia.**

## Message from Kushtia Diocese

Dear all in Christ,

On behalf of Kushtia Diocese, I would like to express my profound gratitude and deepest thanks for your prayers and kind support. Special thanks to Almighty God for being able to return to normal life after almost two years of His grace. So I want to say as psalmist David wrote,

“Praise the LORD, O my soul; all my inmost being, praise his holy name. Praise the LORD, O my soul, and forget not all his benefits. (Psalms 103:1-2)

Over the last 2 months, the church's activities increased a lot after the lockdown opened. Therefore, all priests, our church committee, staff, and catechists have been doing extensive pastoral work and have been busy with face to face meetings and seminars. In particular, with the financial support of the Methodist Church UK and CWM, some contemporary issue-based seminars have been organized in almost every parishes in the Diocese, and few more still left. Having no work or opportunity to go out for a long time, the people of the church seem to have come back to life after participating in all these pastoral activities. Moreover, Hindu and Muslim neighbors are also very happy to participate in the interfaith seminars. On behalf of the Kushtia Diocese, I would like to convey my profound gratitude to the Methodist Church UK and CWM. Without their financial support it won't be possible.

On the 3rd and 4th of November, a big “Kirton Uthshab” (a traditional Spiritual Songs Celebration) took place in Karpashdanga parish and 150 people took part and performed songs based on biblical stories. Thousands of people have enjoyed these songs with spell no bound.

A very special news for Kushtia Diocese is that, by the grace of God, our 5 catechists will be ordained as holy deacons which will take place on 12 December at Kushtia St. John's Cathedral. We beseech your prayers and kind support for that special occasion.

I continue to be so proud of the church family in their faithfulness in attending (whether in person or online), giving, and serving. Our priests, catechists, youth and children's volunteers, Sunday school teachers and staff members continue to do a fantastic job each week keeping Kushtia Diocese moving forward.

To sum up, we are grateful to our moderator of the Church of Bangladesh and his secretary for the smooth running of all activities. Thank you to all the friends of the Diocese and partners who have helped us with prayers and other support. May God be with us.

**Rt. Rev. Hemen Halder.**

The CMHR as it were is a shipwreck in stormy weather to reach any prosperous country. It is hard work but not impossible. However, even if this ship is slightly repaired, we can sink at any time if we are not very careful for it is having many holes.

On 1 February 2021 the hospital was reopened by the Leaders of the Church of Bangladesh after jointly working with the Government to combat against the Covid-19 pandemic in 2020.

Few very essential equipment and machines have been installed e.g. Cell counters, OT lights and patient monitors. A new submersible water pump installed, HRM policy has been placed to practice at CMHR, the hospital has started getting more patients after the lockdown has gone up since transportation facilities have been added for commuting. New ECG machines have been purchased and installed for better reporting. All required registrations and licenses have been renewed, audit for the fiscal year January-December 2020 has been accepted. For up to June 2022 the useful registration and licenses are renewed, CMHR replied and satisfied the NGOAB questions and audit reports 2019 has been accepted. Staff performance is improving at a satisfactory level. The skillful Principal Sulota Drong is running the nursing institute smoothly under the guidance of the different committees of the BOT.

CMHR's monthly income in September 2021 is at a satisfactory level, although the number of patients has been started to decline for uncontrollable logical reasons. The capacity of the staff in different units needs to be

enhanced. We need to appoint our own consultant doctors, introduce new strategies with a special focus on safe maternity and child health care approaches. Similarly, two units of maternity wards can be introduced one ward should have normal vaginal delivery- NVD and the other should have a cesarean section (c-section). We only need to hire female consultant doctors who can do C-section and NVD. We hope that in CMHR's journey to self-sustainability we will find committed skilled consultant doctors soon.

At times, OT space is less than the doctors needed and we are compelled to decline c-section patients due to lack of cabin facilities and OT space and OT light. Most of the existing equipment is too old to produce accurate reports. Lack of own gynecologist, supply of medicines is also very limited. Most of the equipment in the eye department is not good and not working but satisfactory number of eye patients come to get treatment regularly, we can not serve them properly.

To make the hospital program a success, COB needs its own specialist consulting doctors, nurses, technicians and support staff who will sincerely respect each other. The CMHR administration needs to spend more time resolving legal and political relations.

We would like to celebrate CMHR's self-sustaining first centenary in January 2026 with the same goal and mind to improve better organizational behavior for better relationships among stakeholders. It would be best to have a retired female foreign gynecologist volunteer from a friend's church or hospital.

## Covid-19 Lockdown ends

The Nursing Institute was reopened on September 13, 2021 as per the directions of Bangladesh Nursing and Midwifery Council after a long 5 months lockdown holiday for Covid-19. Each student was asked to test the Covid-19 RT-PCR before entering the hostel. Many students found positive result after Covid-19 test.

When the students entered the hostel they came with covid-19 negative result. Again, those who entered the hostel with Covid-19 negative showed symptoms like fever, sore throat, cold, cough, etc. All the students were tested for Covid-19 again from the hostel and 3 students tested positive. They were kept in an isolation room and given Covid-19 treatment. At present number of students: 2nd year 49 students, 3rd year 41 students, 1 absent for more than 1 month.

### Regarding the admission of new students

A total of 75 students applied for admission in the 1st year of the 2020-2021 academic year.

The members of the local working committee saw each application and in the verification phase of the students, the result of the BNMC admission test and the students of the Church of Bangladesh were given priority. In the first round, 50 candidates were selected and the remaining 25 were placed on the waiting list. Each of the 50 selected applicants is notified by phone. So far we have admitted 42 students, out of which 10 are male students and 32 are female students. 5 applicant students have confirmed that they will come for admission only after the transport strike is called off. Hopefully we will be able to admit 50 students. Bangladesh Nursing and Midwifery Council has extended the admission deadline for non-governmental organizations till 30/11/2021. The final test of 2nd and 3rd year will start on 21st November, 2021 and will end on 29th November, 2021. I wish you all the best.
